Thanks Susan for letting me know. Gary and I just discussed it and we have agreed that I will add this update to the next Action Item Log next week.

Dipa,

Wren wanted me to let you know that last week I sent to the SDMS file my comments on the EE/CA including an explanation of differences on how EPA does the sediment analysis for toxicity testing compared to that done by EA, EPA's oversight contractor. This appeared to have been one of the action items from the meeting minutes. Gary has seen this.

Susan
